

Auxiliary Boat Crew PPE Requirements

In accordance with ALCOAST 418/08 and 419/08, the following PFD's are dynamic strength tested to 50 MPH and are authorized for wear by Auxiliary Boatcrews and PWC operators:

Note:

- Boatcrew- inflatable PFD's must be automatic (NO MANUAL INFLATION)
- PWC Operators may only wear type I, II, or III PFD's (NO INFLATABLES)

Inflatable SAR Vest PFD with LIFT™ – Auto Hydrostatic Inflation MD0450 22 USCG

NEW!

Combining Mustang Survival's revolutionary LIFT™ (Life-saving Inflatable Technology) and enhanced SAR equipment vest, provides flotation and equipment carrying capability in one comfortable product.

The USCG SAR Vest with LIFT™ is an excellent choice for use in all sea states and weather conditions and can be worn over the standard uniform or any of Mustang Survival's exposure protective clothing. The vest's low profile design allows for easy maneuvering on deck and provides quick access to equipment.

- 1F auto hydrostatic inflator with manual backup
- Can be worn over uniform and standard rescue outfits
- Pockets designed for standard Rescue & Survival Systems Manual equipment
- Best flotation performance provides safety in severe conditions
- No inflator maintenance required for five years (unless fired)
- Reliable inflation based on hydrostatic pressure
- SecureZIP™ closure withstands rigorous activity and is easy to repack
- Heavy duty coated nylon for increased durability
- Lightweight, comfortable and compact

COLOR Orange
SIN 633-21a

US Patent No. 6832415, and
CAN Patents Pending.

Benchmark SOLAS PFD Mustang PFD with LIFT™

MOUTH IMMERSIONS IN ROUGH SEAS*

Device	Percentage of time mouth is immersed in 15.5' waves
Benchmark SOLAS PFD	71%
Mustang PFD with LIFT™	14%

*Percentage of time mouth is immersed in 15.5' waves – based on machine testing

The Inflatable Vest with LIFT™ PFD delivers a high level of safety by elevating the mouth out of the water by up to nine inches. Known as freeboard, this increase in elevation has been shown to reduce underwater mouth immersions by 80%.

Stearns I424 Utility Vest

LSC 485-CG Life Preserver Survival Vest

LSC 481-CG USCG Pro Lite Vest, Automatic inflation

****Previously issued/acquired CG approved dynamic strength tested 50 mph PFD's are still authorized and may be used in lieu of the above listed models****
